TOP DRAWER

LIABILITY PROGRAM

Doug DeForest, President of NWCA

“Working with all of these strategic partners helps WISE provide lower cost liability insurance solutions and warranty programs for its participating builders. By integrating these programs directly into the construction process we have changed the entire insurance and warranty processes from looking backwards to insure against problems that already existed to a forward looking program that prevents the problems from occurring in the first place and therefore, less costly to insure or warranty against.”

TOP DRAWER LIABILITY PROGRAM HIGHLIGHTS
